Professional Summary

Skilled software developer with expertise in Java, frontend technologies, and SQL. Experienced in OOPs, algorithm development, API integration, and Git. Developed a website for a perfume shop application. Strong understanding of SDLC, database management and data handling, with a focus on building efficient and user-friendly applications.

Technical Skills

- **Programming Languages:** Java
- **Database Management:** SQL, MongoDB
- **Web Development:** Frontend Technologies (HTML, CSS, JavaScript)
- **Frameworks:** Node.js, Express.js
- **Version Control :** Git, GitHub ,VS Code , Canva , Postman

Education

Thiruvalluvar Matric Higher Secondary School	SSLC - 71%	June 2019 – March 2020
Thiruvalluvar Matric Higher Secondary School	HSC - 76%	June 2021 – April 2022
KPR Institute of Engineering and Technology	B.E CSE CGPA - 7.74	Nov 2022 – April 2026

Projects

Perfume Shop Application

- Designed and developed a responsive e-commerce perfume website using HTML, CSS, and JavaScript, delivering a smooth, user-friendly interface across desktop and mobile devices.
- Implemented a Node.js and Express backend with MongoDB to handle contact form submissions via REST APIs, and deployed the full-stack application using Vercel (frontend) and Render (backend).

Fruit Shop Application

- Developed a feature-rich fruit shop application for managing inventory, orders, and customer interactions.
- Implemented key functionalities such as product listing, cart management, and checkout.
- Tools Used: MongoDB , Express, Node.

Ceritifications

Internship : Full Stack development - Phoenix Softech

Git & GitHub : GitHub Foundations

Achievements

- Completed 200+ hands-on coding exercises on the E-Box platform, focusing on Java Foundation , building a strong base in object-oriented programming and algorithmic problem solving.
- Solved 200+ problems on LeetCode and earned the 50 Day Badge and 2 Monthly Badge for consistent problem-solving.
